

- 2) ReactJS
 - ↳ immer
- 2) Redux
 - ↳ immer
- 2) redux-toolkit

- 2) State Management
 - ↳ Redux context
 - ↳ Redux, Redux
 - ↳ Redux toolkit

- Redux
 - ↳ Backplate setup
 - ↳ configuring state (redux/)
 - ↳ additional package (redux thunk)

- ↳ reducer, action, action type, initial state

state = {
 counter: 0
 user: {}
}

redux toolkit

→ X

- ↳ configuring state is easy
- ↳ built-in middleware, RTK (redux toolkit query) as package

- single file (slice)
 - ↳ reducer, action, action type, state
 - ↳ createSlice
 - ↳ userSlice

Redux

central state

dispatcher

action → useDispatch
useSelector
